

The economic offer

Solec Kujawski offers good conditions for investments and running business activities, e.g. localization areas for investments, a good road communication including a railway and a technical infrastructure i.e. a water supply system, a sewage system, a gas pipeline, a power grid. The areas near the national road no. 10 Szczecin - Warszawa are being prepared for running business activities, so-called the Industrial Park.

The Industrial Park is equipped with all necessary technical infrastructure elements. The Business Incubator is located in a part of the area, conditions for new small and medium companies are going to be prepared there. A preferential treatment for interested companies is an additional encouragement.
